You can also buy tickets via the PID Lítačka mobile app or from ticket machines. For official information, see Prague Public Transport Company.
- Ride-hailing services like Uber and Bolt operate throughout the city.
- The city center is very walkable, making it easy to explore many sights on foot. Cycling is also possible, though some areas are hilly.

### Getting around on foot & by bike

WALKABILITY

**High**

Prague's historic centre is compact and largely pedestrianized, making it very pleasant to explore on foot. While some outer areas may be less walkable, the core is excellent.

CYCLING INFRASTRUCTURE

**Moderate**

Prague has a growing network of cycle paths, particularly along the Vltava river, but coverage can be inconsistent in some areas. The city is relatively hilly, which can be a challenge for some cyclists.

# Food & drink

Prague's culinary scene offers a blend of hearty traditional Czech dishes and modern international cuisine. Expect rich, comforting meals often featuring roasted meats, dumplings, and thick sauces. Local specialties include *svíčková* (marinated beef sirloin with a creamy vegetable sauce), *guláš* (goulash, often served with bread dumplings), and *smažený sýr* (fried cheese). For a sweet treat, *trdelník* (a spit-roasted pastry coated in sugar and nuts) is a popular street food found throughout the city, particularly in tourist areas. Czech beer is an integral part of the dining experience, with numerous local breweries and pubs.

For a deep dive into Czech brewing culture, consider visiting Prague Beer Museum, which showcases a wide variety of local beers. Dining options are plentiful around Old Town (Old Town) and Lesser Town (Lesser Town), ranging from casual eateries to fine dining. While many establishments cater to tourists, seeking out smaller, less central restaurants often yields more authentic and affordable experiences. Tipping around 10% is customary for good service in restaurants.

## History

Prague's history began in the 9th century, with Prague Castle serving as the seat of Czech rulers for nearly a thousand years. Nearby, Vysehrad also became an important royal stronghold. The city experienced a golden age in the 14th century under Emperor Charles IV. He oversaw the construction of the iconic Charles Bridge and founded Emmaus Monastery. Much of what you see in Old Town today reflects this era, including the 600-year-old Astronomical Clock on Old Town City Hall.

Over centuries, Prague endured periods of religious reform, such as the Hussite Wars, and long periods under Habsburg rule. These shaped the Baroque architecture visible in Lesser Town. Sites like the 13th-century Old New Synagogue stand as testament to its resilience. More recently, the Lennon Wall emerged as a symbol of peace and resistance during the Communist era.
