Overview

Heidelberg is a university city on the Neckar river, in a wooded valley. A ruined red-sandstone castle stands above the Old Town. The university is the oldest in Germany, so the city has a young, lively feel all year.

It suits a one- or two-night stop. Most visitors come for the castle, the Old Town and the views from the hillside paths. The centre is compact and easy to explore on foot.

When to visit

Late spring and early autumn are the best times. Days are warm and the hillside paths are pleasant. Summer is warm and sometimes hot, with showers through the year. Winter is cold and grey, but the Christmas market is a good reason to come.

Plan around the **Schlossbeleuchtung**, the castle illumination. On a few summer evenings the castle is lit in red and fireworks light up the Old Bridge.

Safety & health

Heidelberg is a safe city for visitors. Violent crime is rare.

- Watch for pickpockets in crowds on Hauptstraße, at the castle and on the Old Bridge.
- Lock your bike, even for a short stop. Bike theft is common in university cities.
- Cobblestones and steep paths are slippery when wet.

History

Heidelberg grew around the court of the Electors Palatine. They built the castle, and in 1386 one of them founded the university. Heidelberger Schloss was destroyed in stages. French troops burned it in 1689 and blew up its towers and walls in 1693. A fire from a lightning strike in 1764 destroyed more of it.

After the wars, the town was rebuilt in baroque style. The stone Alte Brücke dates from 1788. In the 19th century, Romantic poets and painters made the ivy-covered ruin famous.

Thingstätte on the Heiligenberg dates from 1934 to 1935. It was built for Nazi events, and today it is an open-air stage.
