## Overview

Wiesbaden is the capital of Hesse. It is one of Germany's classic spa cities. Hot springs rise in the city centre, and the Romans already used them.

The centre has grand 19th-century buildings, parks and a relaxed pace. The city suits a calm stay of two or three nights. It lies on the Rhine, opposite Mainz, and the Rheingau wine region starts just to the west.

## When to visit

Late spring, summer and early autumn are the best seasons. Summer is warm. Winter is grey and damp.

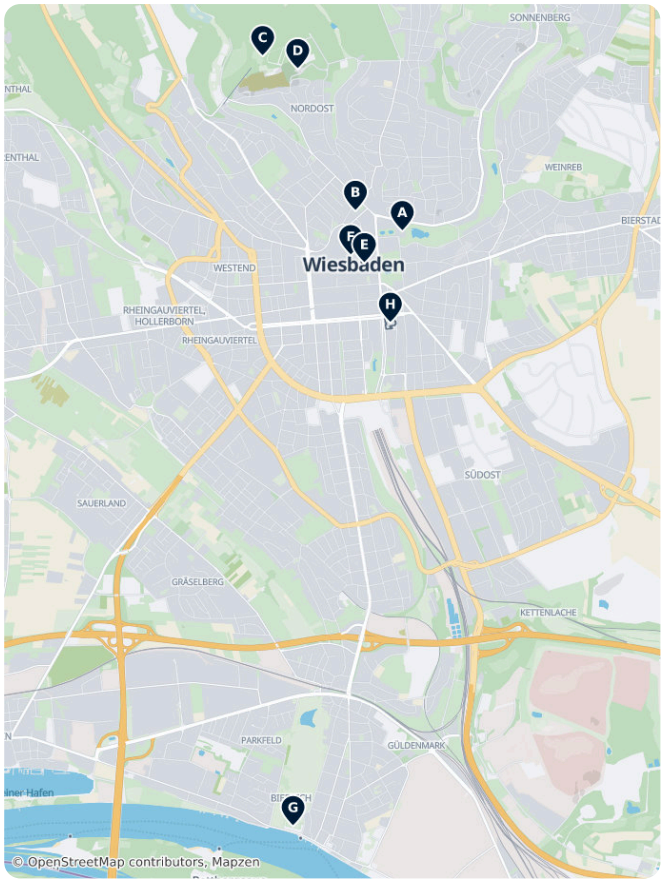

The Internationale Maifestspiele is the main annual event. This theatre and music festival takes place in May at the state theatre.

## Safety & health

Wiesbaden is a safe city for visitors. Petty theft is the main risk, mostly around the main station and in crowds.

## History

The Romans called the settlement Aquae Mattiacorum, the waters of the Mattiaci. Hot springs were the reason for the town.

In the 19th century Wiesbaden became the capital of the Duchy of Nassau. The dukes built the Stadtschloss Wiesbaden and the Marktkirche. The Schloss Biebrich was their earlier residence.

Wiesbaden became a fashionable spa town for European royalty and wealthy visitors. Emperor *Wilhelm II* ordered the Kurhaus, Wiesbaden in the early 20th century. After 1945 the city became the capital of the state of Hesse.
